3. To inculcate team-spirit and provide environment to work as a team.
4. To give practical lessons in management, organization, group behavior, planning, finance, fund-raising etc. and thus to equip the students to face job-market with confidence.

3. The Context:

In order to create a sense of belonging in each student and to show their potentials, institute introduced good practice of having Student council and Student's Association of each department.

4. The Practice:

Every Department of the college have their own **Student Association** of professional bodies. Committee members for this association are selected by respective HOD and in charge faculty of respective department. Once the committee is formed, then student's activity of every department is planned properly for the academic year.

Student Council represents all the students of institute. Every year members of the Student Council for various posts are selected by a committee of Principal, all HOD's and in charge staff of student council and sports. Student Council organizes co-curricular and extra-curricular activities at institute level like sports (Krida Ratna), Technical Festival (Colosseum), College Festival (Odyssey) etc. During Technical Festival Student council and Student Association of respective department organizes technical events.
